ACNE HYPERPIGMENTATION PEEL

This Alpha, Beta or combined hydroxy acid peel removes dead skin cells enabling fresh cells to surface. This treatment diminishes fine lines, lightens hyperpigmentation and loosens congested follicles, restoring smoothness, firmness and clarity. Best results are seen with 4 treatments done two to four weeks apart. This peel also incorporates extractions and a complementary hand/arm massage.

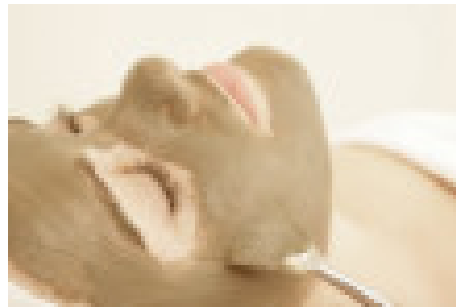

ROSACEA FACIAL

The rosacea facial is designed for clients in need of a solution for sensitive skin with red tones. This facial incorporates lymphatic drainage massage, which manually removes impurities and reduces redness and swelling. A sulfur anti-inflammatory suspension is applied, followed by a calming mask. Rosacure redness relief emollient adds the finishing touch. A complimentary hand/arm massage is included.

ANTIOXIDANT FACIAL

This facial includes cleansing, extractions if needed, and either a European or Lymphatic Drainage massage. Facial massages manually removes impurities and inflammation from the skin. It is then followed by a combination of antioxidant therapies that increase cellular turnover and hydration, nourish and strengthen your skin, and leave you glowing and revitalized.

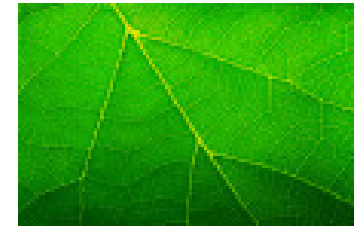

GENTLEMANS FACIAL

This is a relaxing treatment focused on rehydrating skin damaged by shaving, sun exposure and the environment. This facial includes cleansing, exfoliation and extractions followed by a cooling SkinMedica Purifying gel mask. A complementary hand/arm massage is included.

BACK TREATMENT

Relax as your upper shoulders and back are cleansed and exfoliated with warm steam, extractions to remove impurities, and a back massage followed by a mask. This treatment will leave your back luminous, healthy-looking and stress-free.
